

TEMPERATURE INDICATING STICKS

Accurate within +/- 1% Fahrenheit and +/- 3% Celsius nominal temperatures.

LASCENTRUM INDICATING STICKS

Cleaner welding equipment, cleaner operation, reduced costs, better surface finish, saves time, reduces production time, chemically inert.

Lascentrum temperature crayons give the right temperature with high precision during welding, soldering and other heat treatments.
Available in different temperatures. The correct temperature is reached once the stick melts.
Accurate within +/- 1% Fahrenheit and +/- 3% Celsius nominal temperatures.

HOW TO USE:

The correct temperature is reached on the surface once the crayon at the end of the Lascentrum welding stick melts.
